

## High-Gloss White 80 g

### Description

A white, high-gloss paper is particularly suitable for colored labels. The paper is cast-coated and woodfree.

### Surface Material

Net weight: 90 g/m<sup>2</sup>

### Carrying Material

HG65, a standard-quality yellow paper. It is surface-sized, calendared, wood free and transparent.

### Adhesive

A universal, natural-rubber-based permanent adhesive.

### Operational info

min. application temperature: 0°C  
Service temperature: -40°C bis 60°C

### Adhesive performance

The adhesive RH9X was developed to be used outdoor and in cool environments. The adhesive RHX9 is particularly suitable for labelling humid surfaces or for applications which require a high initial adhesion. The adhesive has a good resistance to low temperature after the labelling process; its adhesive force is optimal on non-polar surfaces.

### Shelf life

Optimal storage conditions: 20°C and 50% humidity. This ensures durability of one year after the production date. Higher temperatures and/or humidity percentage affects the material's shelf life.

### Range of application

The material is designed for high-quality, multicolored glossy product labels.

These findings are based on tests carried out by our material suppliers and our own experience. label.co.uk cannot give any warranty or guarantee for the optimum adhesion of the materials. label.co.uk assumes that the all customers review the suitability of the materials for their own purposes and as a result selects a material that meets their specific needs. The labels should be stored dry and at room temperature between 20 and 24 degrees Celsius as well as protected from the effects of sun, rain or snow. Label adhesive is very susceptible to changes in weather conditions.

FSC Mix Credit

Writability & Stamp-able

Stamping Ink "Noris #191" is recommended; the ink dries within approx. 30 seconds.

Suitable for Thermal Transfer  
Please check the suitability of your device.

The material colour shown may vary. Please request a complimentary Sample Book online at [label.co.uk/sample-book](http://label.co.uk/sample-book), in order to review our materials and print quality more thoroughly.
