It explains which data is collected and for what purposes, how it is processed and how it is used.

1. Access data and hosting

You can visit our website without providing any personal information. Each time a website is called up, the web server automatically saves a so-called server log file which, for example, contains the name of the requested file, your IP address, date and time of the request, the amount of data transmitted and the requesting internet service provider and documents the request.

These log files are evaluated exclusively for the purpose of ensuring trouble-free operation of the site and improving our services. This serves to protect our legitimate interests in a correct presentation of our offer, which predominate within the scope of a balancing of interests. All log files will be deleted no later than ten days after the end of your visit to the site.

Which data is collected can be seen from the respective input forms. We use

the data provided by you to process contracts and your enquiries. After complete processing of the contract or deletion of your customer account, your data will be restricted for further processing and deleted after expiry of the storage periods under tax and commercial law, unless you have expressly consented to further use of your data or we reserve the right to use data beyond this, which is permitted by law and about which we inform you in this declaration. The deletion of your customer account is possible under certain conditions. For this purpose, please contact the contact option described below.

3. Data transfer

In some cases, the selected payment service providers also collect this data themselves if you create an account there. In this case, you must log in to the payment service provider with your access data during the ordering process. The data protection declaration of the respective payment service provider applies in this respect.

Data transfer to shipping service providers

If you have given us your express consent to this during or after your order, we will pass on your e-mail address and telephone number to the selected shipping service provider on the basis of this so that the latter can contact you before delivery for the purpose of notification or coordination of delivery.

Consent can be revoked at any time by sending a message to the contact option described below or directly to the shipping service provider at the contact address listed below. 7. Cookies and web analysis

To make visiting our website attractive and to enable the use of certain functions, to display suitable products or for market research purposes, we use so-called cookies on various pages. This serves to protect our legitima-

te interests in an optimized presentation of our offer, which predominate in the context of a balancing of interests. Cookies are small text files that are automatically stored on your end device. Some of the cookies we use are deleted after the end of the browser session, i.e. after closing your browser (so-called session cookies). Use of Google Analytics for web analysis

For website analysis, our websites use Google Analytics 360, a web analysis service of Google LLC (www.google.com). This serves to protect our legitimate interests in an optimized presentation of our offer, which predominate in the context of a balancing of interests. Google Analytics 360 uses methods that enable an analysis of your use of our websites, such as cookies. The automatically collected information about your use of our website is usually transferred to a Google server in the USA and stored there. By activating IP anonymization on our websites, the IP address is reduced prior to transmission within the member states of the European Union or in other states party to the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there. The anonymous IP address transmitted by your browser within the framework of Google Analytics is not merged with other Google data.

Google LLC is headquartered in the USA and is certified under the EU-US Privacy Shield. A current certificate can be viewed here. As a result of this agreement between the US and the European Commission, the latter has established an adequate level of data protection for companies certified under the Privacy Shield.

You can prevent Google from collecting the data generated by the cookie and relating to your use of the website (including your IP address) and from processing this data by Google by downloading and installing the browser plug-in available under the following link: <http://tools.google.com/dlpage/gaoptout?hl=en>

As an alternative to the browser plugin, you can click this link to prevent Google Analytics 360 from collecting data on this website in the future. An opt-out cookie is stored on your mobile device. If you delete your cookies, you must click the link again.

Use of Hotjar for web analysis

For website analysis our websites use Hotjar, a web analysis service of Hotjar Ltd. ("Hotjar"). This serves to protect our legitimate interests in an optimized presentation of our offer, which predominate in the context of a balancing of interests.

Hotjar uses methods that enable us to analyze your use of our websites, such as cookies and other technologies. The automatically collected information about your use of our websites is usually transferred to a Hotjar server in Ireland (EU) and stored there. Interactions with the website are recorded anonymously (especially IP address of the device in anonymized form, screen size, device type (unique device identifiers), information about the browser used, location (country only), language preferred for displaying our website). This creates a protocol of e.g. mouse movements and clicks with the aim of pointing out possible improvements to the respective website. In order to exclude a direct personal relationship, IP addresses are only stored and processed anonymously. In addition, information about the operating system, browser, incoming and outgoing links, geographical origin, as well as resolution and type of device are evaluated for statistical purposes. The information is neither used by Hotjar nor by us to identify individual users or combined with other data about individual users. For more information, please see Hotjar's privacy policy here.

8. advertising via marketing networks

Google AdWords / Google Remarketing

We use Google Adwords to advertise our websites in Google search results and on third-party websites. When you visit our website, Google uses the so-called remarketing cookie, which automatically uses a pseudonym CookieID and, based on the pages you visit, enables interest-based advertising. This serves the protection of our legitimate interests in an optimal marketing of our websites.

Any additional processing will only take place if you have agreed with Google that your web and app browsing history will be linked to your Google Account and information from your Google Account will be used to personalise ads you see on the web. In this case, if you are logged in to Google while visiting our website, Google will use your data together with Google Analytics data to create and define target group lists for cross-device remarketing. To this end, Google temporarily links your personal data with Google Analytics data to form target groups.

Google AdWords Remarketing is a service of Google LLC (www.google.com). Google LLC is headquartered in the USA and is certified under the EU-US Privacy Shield. A current certificate can be viewed here. As a result of this agreement between the US and the European Commission, the latter has established an adequate level of data protection for companies certified under the Privacy Shield.

You can disable the remarketing cookie via this link. You can also contact the Digital Advertising Alliance to find out how to set cookies and to make the relevant settings.

Through bing we advertise our websites in the bing search results as well as on the websites of third parties. For this purpose, when you visit our website, bing sets a so-called remarketing cookie, which automatically uses a pseudonymous cookie ID and enables interest-based advertising on the basis of the pages you visit. This serves the protection of our legitimate interests in an optimal marketing of our websites.

Bing Ads technologies are used to collect and store data from which user profiles are created using pseudonyms. This is a service of Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399, USA. This service enables us to track the activities of users on our website when they come to our website via ads from Bing Ads. If you access our website via such an advertisement, a cookie is placed on your computer. A Bing UET tag is integrated on our website. This is a code used in connection with the cookie to store some non-personal data about the use of the website. This includes the time spent on the website, which areas of the website were called up and via which display the users accessed the website. Information about your identity is not collected.

The information collected is transmitted to Microsoft servers in the United States and stored there for a maximum of 180 days. You can prevent the collection of data generated by the cookie and related to your use of the website and the processing of this data by deactivating the setting of cookies. This may restrict the functionality of the website.

In addition, Microsoft may be able to track your usage across multiple electronic devices through cross-device tracking, enabling you to display personalized advertising on or in Microsoft Web pages and apps.
